

**Honors Geometry Award
2020
Yebin “Adelyn” Sim ’24**

“Yebin Sim is a serious student who is always willing to ask clarifying questions or to lend a hand to the members of her group. Her solutions on homework and assessments are extremely clear, organized and thorough, and have helped her to seamlessly learn and build upon the more complex facets of the course. She is a wonderful student. It is my honor to present the 2020 Barber Prize for Honors Geometry to Yebin Sim.”
